Invesco

Data as at 31 July 2026

Invesco Global Equity Income Fund

A-Accumulation Shares

SEDOL: B50S0Y2 | ISIN: LU0607513230 | Bloomberg code: IGEIAAU LX | Valor-Number: 13352244

Why invest in this fund

1. A high conviction fund of around 40-50 stocks based on fundamental, bottom-up research.
2. Our strength is finding companies that have a strong track record of dividend payment, but, crucially, can grow those dividends too.
3. We think about income at the fund level, not stock level. This approach allows us to combine companies that have a history of growing dividends with those that have lower yields but can reinvest in their business at attractive rates of return.

Top 10 holdings
(% of total market value)

	Fund	Index
3i Group	5.3	0.0
Rolls-Royce Holdings	4.4	0.2

The Risk indicator is subject to change and is correct based on the data available at the time of publication.

This marketing communication is for use in Switzerland. Investors should read the legal documents prior to investing.

Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

Fund objective

The Fund aims to generate a rising level of income, together with long-term capital growth, investing primarily in global equities. In pursuing this objective, the Investment Adviser may include investments that they consider appropriate which include transferable securities, money market instruments, warrants, undertakings for collective investment, deposits and other permitted investments. For the full objectives and investment policy please consult the current prospectus. The investment concerns the acquisition of units in an actively managed fund and not in a given underlying asset.

Glossary

ACR / Annual Compound Return: Compound returns represent the cumulative effect that gains and losses have on invested capital over time. Annual Compound Return is the annual rate of return that would be required for an investment to grow from its starting balance to its ending balance.

Alpha: The risk-adjusted excess return of an investment compared to a benchmark.

Benchmark index: A standard against which an investment fund or portfolio is measured to give an indication of relative performance.

Beta: A measure of an investment's sensitivity to market movements.

Cash and cash equivalents (CCE): The liquid assets on a company's balance sheet. Cash includes currency and demand deposits, while cash equivalents are short-term, highly liquid investments. For accounting purposes, the cash and cash equivalent figure may include the notional cost of futures (a type of derivative). This notional amount will be negative when the Fund is buying futures and positive when the Fund is selling futures.

Commodities: Basic physical goods such as energy, metals, or agricultural products, that are interchangeable within their category and traded on global markets.

Country of risk: Used to classify stocks, identifies the main country of operations/ exposure of a firm.

Distribution frequency: How often dividends and/or interest generated by an investment product are disbursed to investors.

Holdings: The contents of an investment portfolio or fund, including any products like equities, bonds or ETFs.

Market capitalisation: How much a company is worth as determined by the stock market. Calculated as the total market value of all shares. Market capitalisation breakdown definitions: Large cap (USD 10 bn+), Mid cap (USD 2bn to 9.99bn), Small cap (USD 0 to 1.99bn).

Ongoing costs: Includes management fees and other administrative and operating expenses. This estimate is based on the actual costs over the past year or on expected costs in the case of a recent launch.

Swing pricing: The Fund may apply a swing pricing mechanism (max. 2%% of NAV) to protect existing shareholders from the negative impact on net asset value that they may suffer as a result of charges arising from significant inflows and outflows of other investors in the Fund. The adjustment to the valuation method shall not exceed 2%% of the net asset value. Please refer to the Prospectus for further information

Transaction Costs: The Transaction Costs figure is a percentage of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.

Volatility: The degree to which the price of a financial asset fluctuates over time, indicating how much and how quickly its value tends to rise or fall.

SFDR (Sustainable Finance Disclosure Regulation)

The Fund complies with Article 8 with respect to the EU's Sustainable Finance Disclosure Regulation*. As such, the Fund promotes, among other characteristics, environmental or social characteristics or a combination of those characteristics. In addition, the companies in which the Fund invests follow good governance practices. *Regulation (EU) 2019/2088 on sustainability – related disclosures in the financial services sector.

Exclusion Framework

The Fund embeds an exclusionary framework to specific activities based on UN Global Compact, severe governmental sanctions, revenue thresholds for certain activities linked to environmental and/or social criteria, as well as ensuring that companies follow good governance practices. The list of activities and their thresholds are listed below. For further details on the exclusion framework and characteristics applied by the Fund please refer to the website of the manager www.invesco.com/lu-manco/en/home.html :

UN Global Compact	• Non-compliant
Country sanctions	• Sanctioned investments are prohibited**
Controversial weapons	• 0% of revenue including companies involved in the manufacture of nuclear warheads or whole nuclear missiles outside of the Non-Proliferation Treaty (NPT)
Coal	• Thermal coal extraction: >=5% of revenue • Thermal coal power generation: >=10% of revenue
Unconventional oil & gas	• >= 5% of revenue on each of the following: Arctic oil & gas exploration Oil sands extraction Shale energy extraction
Tobacco	• Tobacco Products production: >=5% of revenue • Tobacco related products and services: >=5% of revenue
Others	• Recreational cannabis: - >=5% of revenue
Good governance	• Ensure that companies follow good governance practices in the areas of sound management structures, employee relations, remuneration and tax compliance

**At Invesco we continuously monitor any applicable sanctions, including those imposed by the UN/US/EU and UK. These sanctions may preclude investments in the securities of various governments/regimes/entities and as such will be included in our compliance guidelines and workflows (designed to ensure compliance with such sanctions). The wording of international sanctions is something that we pay particular attention to as there are occasions where sanctions can exist in limited form, for example allowing investments in the secondary market. In addition to sanctions targeting entire countries, there are other thematic regimes, which may focus for example on human rights, cyber attacks, terrorist financing and corruption, which may apply to both individuals and/or entities/corporations.

Any investment decision should take into account all the characteristics of the Fund as described in the legal documents. For sustainability related aspects, please refer to: www.invesco.com/lu-manco/en/home.html.

Invesco's approach to ESG

Invesco has an investment-led ESG approach. We provide a comprehensive range of ESG-focused capabilities that enable clients to express their values through investing. Where appropriate, for certain funds, we also integrate financially material ESG considerations, taking into account critical factors that help us deliver strong outcomes to clients.
